DETAILED ACTION

Allowable Subject Matter

Claims 1-3 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art teaches a mounting substrate that has at least two chip mounting areas, inner electrodes that are aligned along the side of the chip mounting areas, interconnecting wires that connect to the inner electrodes and extend out from the chip mounting area and cross a scribe line in the chip mounting substrate between the two chip mounting areas, where the interconnecting wires are connected to the interconnecting wires of the adjacent chip, which will be cut apart along the scribe line, but the prior art does not teach the above teachings in combination with the interconnecting wires at an oblique angle extending from the chip mounting area and crossing the scribe line at that angle. This combination was found to be unobvious, thus novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
